# Jeffrey Tram

 Snellville, Georgia

## EDUCATION

### Georgia Institute of Technology

BS in Computer Science

Expected May 2021

Atlanta, Georgia

- GPA: 3.81/4.0
- People/Media Thread

### Georgia State University

BS in Computer Science

Aug. 2017 – Dec. 2018

Atlanta, Georgia

- GPA: 4.09/4.3 (weighted)
- Honors College
- President's List: Spring 18 and Fall 18, Dean's List: Fall 17

## EXPERIENCE

### University Assistant

Georgia State University Instructional Innovation and Technology

Sept. 2017 – Dec. 2018

Atlanta, Georgia

- Designed GSU's Collaboration Tools Page by creating a new layout with an animated banner and icon set to serve as the new hub for the school's available tools.
- Created pages promoting Microsoft Office Suite and other tools/services for students, staff, and faculty
- Created end user documentation for many features and tools

## SKILLS

### Programming Languages

- Proficient in Java, HTML, CSS, JavaScript
- Familiar with C, Bash, Assembly

### Adobe Products

- Proficient in After Effects
- Familiar with Illustrator

## PROJECTS

### Grade Manager (personal project)

JavaScript, HTML, CSS

[github.com/jeffreytram/Grade-Manager](https://github.com/jeffreytram/Grade-Manager)

- Built a web app to allow students to manage and calculate their grades as the semester progresses
- Designed front end logic in JavaScript

### Personal Website (personal project)

HTML, CSS

[github.com/jeffreytram/jeffreytram.github.io](https://github.com/jeffreytram/jeffreytram.github.io)

- Created a personal website to showcase my experience, projects, and other information about me
- Planned the user interface by sketching the design in a notebook
- Implemented a responsive UI in HTML and CSS

### Weather App (personal project)

JavaScript, HTML, CSS

[github.com/jeffreytram/Weather-App](https://github.com/jeffreytram/Weather-App)

- Built a web app that allows users to view the current and past weather conditions at their current location
- Uses Dark Sky API for weather and location data
- Uses Nominatim API to convert location data into an address

### MovieRatings (class group project)

HTML, CSS, Python

[github.com/avgit77/CSC2720-Group-Project](https://github.com/avgit77/CSC2720-Group-Project)

- Designed a web app that allows users to search for movies, add them to their personal list, and give the movie their personal rating.
- Responsible for the front-end development from the conception to execution
